MANN THAKKAR

Cybersecurity & Security Engineering Undergraduate
Ahmedabad, Gujarat, India | mann.25434014@nsitifscs.ac.in | linkedin.com/in/mann-thakkar-06a8a4380 | GitHub: Mann461
Application Security | Security Engineering | Network Defense | Cryptographic & AI Research

PROFILE

Cybersecurity undergraduate (Integrated B.Tech–M.Tech CSE) at NSIT-IFSCS (affiliated with National Forensic Sciences University, NFSU) focused on Application Security, Network Security, and Security Engineering. Hands-on foundations in VAPT, SOC/Incident Response, Python development, Linux, and mathematical security research. Led a team to a national competition final, built a full-stack compliance utility, and presented national-level research on cryptographic resilience and Generative AI. Seeking an Information Security or Security Engineering Internship.

EDUCATION

B.Tech + M.Tech Integrated in Computer Science & Engineering (Cyber Security) *Aug 2025 – Jun 2030*
NSIT-IFSCS, NFSU (Affiliated with National Forensic Sciences University), Ahmedabad, India

- **Academic Performance:** Currently in Semester 3 | Semester 2 SPI: 8.16 | Semester 1 SPI: 7.43
- **Relevant Coursework:** VAPT, SOC & Incident Response, Digital Forensics, Threat Intelligence, Endpoint Detection & Response (EDR), DevSecOps, AI in Cybersecurity, Computer Networks, Data Structures & Algorithms, DBMS, Python Programming

TECHNICAL SKILLS

Programming & Scripting: Python (OOP, Modular Design), C, C++, SQL / PL-SQL
Cybersecurity Domains: Application Security, Network Security, VAPT, Cyber Defense, SOC Fundamentals, Incident Response, BCDR, Access Control Concepts, Threat Intelligence & Analysis, EDR, Digital Forensics, Password Security
Tools & Platforms: Nmap, Wireshark, tcpdump, Cisco Packet Tracer, Linux (Ubuntu), Git & GitHub
Research & Modeling: Generative AI & Future Trends, Password Entropy Analysis, RSA Number Theory & Cryptography, Mathematical Modeling, Academic Technical Writing

TECHNICAL PROJECTS

SPAISS – Solar-Powered AI Smart Surveillance & Criminal Detection System *Team Leader | Finalist, KANAD S.H.I.E.L.D. 2026*

- Designed a solar-powered Edge-AI surveillance concept for remote, off-grid environments using an alert-first, video-second architecture to minimize bandwidth dependence. GitHub: Mann461/AgisNexus
- Integrated AI-based facial detection and recognition, resilient edge-to-cloud communication, and centralized monitoring for public safety under strict connectivity constraints.
- Led Team Cyber Warriors across problem conceptualization, system architecture, development, team coordination, and final pitch.

GSTR-1 vs. e-Invoice Reconciliation & Compliance Web App *Full-Stack Developer | Deployed on Render*

- Built and deployed a web utility comparing GSTR-1 data against e-Invoice records to support automated tax reconciliation and compliance workflows, with an interactive upload interface that surfaces discrepancies for audit review.

SmartAttend SaaS – Higher Education Attendance Platform *Lead Developer | Oct 2026 – Present*

- Architecting a semester-based attendance SaaS platform for higher education institutions in India, structuring cloud hosting budgets and unit economics for scalable deployment.

RESEARCH & PRESENTATIONS

Paper Presentation – National Conference "The STEM Equation" (Vikas Saptah 2026), IITE, Gandhinagar *30 Sep – 01 Oct 2026*

- Presented "Generative AI: Future Directions" at the two-day national conference organized by the School of Doctoral Studies and Innovation, IITE Gandhinagar, supported by Knowledge Consortium of Gujarat (KCG) and Vigyan Gurjari.

Paper Presentation – NCRTTM 2026, M. G. Science Institute, Ahmedabad *27 Jul 2026*

- Published "An Adaptive Entropy-Based Mathematical Model for Evaluating Password Security Against AI-Attacks," quantifying credential resilience against AI-assisted guessing and cracking using entropy-based modeling.

CERTIFICATIONS & ACCREDITED TRAINING

- **ISC2 Certified in Cybersecurity (CC) – Domains 1 to 5 Completed** (ANAB & ACE Accredited, Learner ID: a8fd358c-0337-49cd-acc7-cdd9ab059d30, Aug 2026): D1 Security Principles (01 Aug 2026); D2 Incident Response, BC & DR Concepts, D3 Access Control Concepts, D4 Network Security, D5 Security Operations (all 22 Aug 2026)
- **NIPAM (National Intellectual Property Awareness Mission):** IP Awareness/Training Program by Intellectual Property Office, Ministry of Commerce & Industry, Govt. of India (15 Sep 2026)
- **Mastercard Cybersecurity Virtual Experience Program** (Forage, 2025); **Deloitte Cyber Job Simulation** (Forage, 2025); **Getting Started with Cisco Packet Tracer** (Cisco Networking Academy, 2025)

HACKATHONS, CONFERENCES & ACHIEVEMENTS

- **Finalist – KANAD S.H.I.E.L.D. 2026:** Team Leader (Team Cyber Warriors) for the SPAISS Edge-AI smart surveillance project.
- **National Summit Participant – Cyber Samwad 2026 (16–17 Oct 2026):** National Cybersecurity Summit at Adani University, Ahmedabad (with IEEE Computational Intelligence Society; sponsored by Zscaler & Demmisto Technologies).
- **Hackathon Participant – HackOut'26:** National hackathon organized by DA-IICT, Gandhinagar (2026). **CTF Participant – Hex Hunt 2025:** Cybersecurity Workshop & Capture the Flag competition.
- **Volunteer – GUJCOST-Sponsored STTP (2026):** "AI Sentinel: Pioneering Cyber Security & Digital Investigation."
- **Cyber Safety Pledge 2026 (24 Oct 2026):** Certified by Indian Cyber Crime Coordination Centre (I4C), Ministry of Home Affairs & MyGov (Certificate ID: 4395485573).

LEADERSHIP & COMMUNITY

- **IEEE & IEEE Computer Society Member (2025–2026):** Active student member of the NSIT-IFSCS IEEE Student Branch; IEEE Computer Society Graduate Student Member.
- **Editorial Team Member – NSIT-SAMVAD Newsletter:** Part of the student team behind the institute's inaugural newsletter showcasing student innovation and technical activities.

CORE INTERESTS

Application Security | Network Security | Security Operations (SOC) | VAPT | Digital Forensics | AI & Generative AI in Cybersecurity | Password Security & Cryptographic Research
